Sequel to the Fire

Wetaskiwin, June 29, 1903.
Thomas Torson chief of Wetaskiwin Fire Brigade.

Dear Sir: Please accept cheque for one hundred dollars, as a slight token of my appreciation of your heroic efforts in saving my building, north of Pearce street from fire.

Mr. Geo. Bayless and others of your brigade acquitted themselves nobly.

I hope your valuable services as chief of the Wetaskiwin Fire Brigade will still be at the disposal of the town.

Yours truly,
JOHN WEST.

Wetaskiwin, June 30, 1903.
Mr. John West, Wetaskiwin, Alta.

DEAR SIR: I am in receipt of your kind letter and cheque for \$100.

The money shall be distributed as you wish. Accept my thanks on behalf of the Wetaskiwin Fire Brigade.

Yours truly,
THOS. TORSON, Chief.

Strathcona, June 27, 1902.
Thos. Torson Esq., Wetaskiwin, Alta.

DEAR SIR: We are very pleased to learn personally from Wetaskiwin merchants yesterday, that the confining of the fire to the damaged area was in a large measure due to your efforts as chief of the fire brigade.

We have much pleasure in enclosing our cheque for \$25 in favor of yourself as a token of our appreciation of your conduct.

Yours truly,
THE BRACKMAN-KERR MILLING CO., Strathcona.

Wetaskiwin, Alta., June 24, '03.
John West Esq., Wetaskiwin, Alta.

DEAR SIR:—We, the undersigned, at this time to express our sincere sympathy for you at the loss of the Pioneer Store and the serious inconvenience you are put to in consequence.

Whilst it is only a natural exigency that your staff, as understood, be comes disorganized and disbanded, as it were, yet all sincerely hope that it is only for the time being, and that as soon as you speak the word, we are sure every one of us will be ready and willing to take up our work at a new and even greater Pioneer Store than the old one.

To have worked with you has been a pleasure and an advantage which we all regret losing, and as we have already said, we hope the loss and breaking up of our business connection together, will only be temporary. Again assuring you, Mr. West, of our heartfelt wishes and sympathies in which we would wish kindly to include your good family and wife.

We are, dear sir, yours very truly,
Young Byers, A. L. Roalstad, E. D. McLaughlin, Jas. F. Ellis, L. B. Ritz, C. B. MacMurdo, R. Swift, Hudson, V. A. Facey, R. B. Price, Nettie Nelson, Warren Christie, J. Le McNeight and Chas. D. Evans.

Wetaskiwin, June 24th.

GENTLEMEN—I can assure you that I have given me very great pleasure to receive such spontaneous expression of your sympathy. Only yesterday we were each in our department, striving to make the Pioneer Store an attraction to people of both town and country.

Every member of our staff was brimful of enthusiasm over the success we had achieved, but in one short hour the business we had built up disappeared. Our mutual loss was heavy.

Your expression of loyalty and good will for myself and family, coming so soon after the shock to each of us will always be cherished and remembered and if the Pioneer Store is restored, it could not start under more favorable circumstances than to reinstate the old staff complete as it was before the fire.

Gentlemen, this is all that I can say at present, and again thanking you, believe me, most sincerely yours,
JOHN WEST.

Inter-Western Fair at Calgary

The new management of Calgary's summer fair is straining every nerve to make it one of the leading events of the year in the west. The buildings are being reconstructed and overhauled particularly with a view of accommodating a larger exhibit of livestock. It is expected that nearly all the leading breeders in the Territories as well as a large number of Manitoba and British Columbia breeders will send exhibits.

What the educational feature of the show will be kept prominently in the front, the requirements of the pleasure seeking portion of the public will also be catered to. The most elaborate Gymkhana the west has ever seen is being arranged for and a series of base-ball matches between leading teams in the west will also be a strong attraction. Military sports which take place on the second day of the fair, are always interesting and the speeding events on the third and fourth days have already attracted the attention of a large number of prominent horsemen throughout the west. One of the novelties of the Calgary exhibitions will be the jumping competition in front of the grand stand on the first day of the show.

Mr. Smith is a very earnest worker, an eloquent speaker and a good reader, and we look forward to his abundant success in his new field. He is being succeeded here by Rev. C. G. Cornhill, of the London Conference, who comes highly recommended. Mr. Cornhill is expected to conduct the services in the Methodist church next Sunday.

Cards of Thanks

Mr. and Mrs. J. H. Walker beg to heartily thank all friends who so kindly assisted them during the time of the fire.

I wish to express my gratitude and thanks to the people of Wetaskiwin, who have shown myself and family so much sympathy in my present trouble. I also take this occasion to thank those for their patronage while I was in business, and although Wetaskiwin has been disastrous to me, I shall keep pleasant recollections of its citizens.

G. H. L. BOSSANCE

Highland Park

We have now nice and sunny weather with a little shower occasionally and everything is growing fast.

William and Walter Candler went to British Columbia to work until next spring.

A little daughter arrived at the home of Mr. and Mrs. O. F. Carlson, a week ago last Sunday.

Two wagon loads of folks from here drove up to Enon Heights to attend the dedication of the new Baptist church at that place. They have a nice church and the preaching was very good in every respect.

The school here commenced on the 9th, of June with E. D. Demorest as teacher and there is a good attendance.

Several of the farmers here have found fine specimens of iron ore, and the chances are that we will have an iron mine in here.

E. Nordgren, the road overseer has been around working on the roads, and the roads have been improved quite a lot. What we need most of all is good roads and plenty of draining of sloughs.

Now is the time for farmers to insure their crops and be on the safe side. A stitch in time saves nine.

Several parties from the States have purchased land here lately, making our settlement larger and more of a population. There are some very nice farms to be had here. No collection.

It seems kind of queer that the mail carrier takes so long to come, and then, our mail in here was pretty well soaked and we don't like that very well. Keep on for a firm as long as possible.

Mrs. J. A. Johnson will be very sick, but hope that she will be well soon.

The post office has been moved to Hanson Bros. store and we have now got things pretty handy and the trade is improving daily. After a while we will have a large mercantile business here.

Honor Where Honor is Due.

Saturday being the 11th, of July, and our American friends no doubt wishing to honor their dear land by flying their flag. Will they not also use the flag of the country of their adoption and display it? No doubt they can see for themselves that in several ways this is a free country than the one from which they came. Rarely indeed can a Canadian or British flag be flown across the border at any time without some hostile demonstration. The American flag is honored in Canada, but let it be used in connection with the Canadian flag. M. D. H.

Public School Promotions

Nashville.

We notice that Jacob Ellund, of Pigeon Lake, is the guest of Mr. and Mrs. John Ellund. He is talking of starting a blacksmith repair shop here.

Harry Ludgren is buying cattle these days and nothing but good stock. Harry must be thinking of house keeping in the near future.

The grain and grass are still growing nicely and the farmers are rejoicing over the prospect of a good crop this year.

Born to Mr. and Mrs. Herman Egland, of Nashville, on June the 24th a fine baby girl. Mother and daughter are both doing well.

Elmer Ellund, of Nashville, is over on his homestead doing some improvements. We expect Mr. Ellund will soon be looking for someone to share the comfort of the new house with him, so now girls be good when Mr. Ellund comes around.

Erick Johnson is building a nice new house on his farm this year. The house is 18x31, two stories, the bottom part is larger. J. Peterson is doing the work which is a guarantee of good workmanship and the house will be a credit to the neighborhood and a great improvement to the farm.

Answer to T. C. D.

To the Editor of The Times

DEAR SIR,—I am certainly much
grieved to find that my little innocent
looking pamphlet should be guilty of
such gross misdeemeanor as to consid-
erably astonish our much learned
friend answering to the initials T. C.
D. (for Trinity College, Dublin). I
am furthermore grieved if the shock
he received should have a lasting ef-
fect. Yet his communication seems
to indicate that he has not got over it
yet.

First, my learned friend tells us
he shall not trouble us with the num-
ber of scriptural quotations strung to-
gether at random. Let me say they
are not strung together at random,
but given in strict order, and if my
learned friend will see first, page 10
will also see that I have based my
facts and figures on biblical teaching,
and if he will not use them I certainly
must conclude that he is as yet too
much astonished to see the truth.

Secondly, my learned friend calls
attention to the fact that my argu-
ment regarding Ephraim and the
English people is the "am and legs"
argument. Now, I am perfectly will-
ing that he call it by whatever name
he pleases, but let him remember that
while there are now people in Eng-
land who perhaps are able to pro-
nounce in the right place the letter 'h',
yet a real true Englishman invariably
does not use that letter in his right
connections. For instance, let us hear
a real, genuine Englishman say horse,
heart, health, home, and he will, at
least on most occasions, say orse,
earth, eath, and oney. And when
my friend talks about our educated
Englishmen, we must remember that
the English people are a very mixed
race, and yet we may find very well
educated Englishmen who are not
able to pronounce the letter 'h' in its
right connection. While I was in
Winnipeg a couple weeks ago very
many, and well-educated, Englishmen
were there, having come over with the
Bar colony. One evening, two bank
clerks came to me asking me to help
them to get work. One of them said
he had nothing to "heat" for two days
while the other said he was "cartsick"
and wanted to go "ome." These two,
let my learned friend know, were ed-
ucated Englishmen.

Thirdly, regarding England being
conquered, page 17. Let me ask what
does my friend mean by being con-
quered? Does it not mean being sub-
dued—losing the power to govern
themselves? If it is his meaning,
has England ever lost that power?
Does my learned friend not know that
when the Romans came to the British
shores the Old Britons were not asleep,
but met them even out in the water,
and slew them there? Does he not
know that on another occasion, when
coming to the English shores, and at
this time landed, a storm came up and
all their vessels were driven out to sea
and lost? Does he know that even
the Romans thought the Britons con-
quered, yet as soon as the Romans
were gone the Britons were the same
old self-governing Britons? If my
learned friend will look in the World's
Wide Encyclopedia, page 2209, vol.
III, he will find that the whole of Brit-
ain was never conquered.

Regarding the United States, let me
say that where the power is vested in
the voice of the people, I call this a
Republic, or, as the United States, a
great people. But where the power is
vested in a crowned head, I call this
a nation. We call France a republic,
the United States a republic, and I
have never heard the name re-

publican nation until my critic en-
lightened me in that respect; and I
may rightly say we learn as long as
we live.

My learned friend did not get over
his astonishment when he criticised
the name John Ball. He there tells
us that Englishmen (not as Mr. Green
has it, England) is called John Ball.
I wonder what an Englishman would
say when my friend, in meeting one,
would call him John Ball. I would
not dare. I am positive that any
sensible man would understand me to
mean the English people when I say
England. If my friend will come to
me I will show him the English uni-
on guarding the English emblems,
and it is represented with one horn.
Oliver Cromwell's arm was not so
weak after he knocked off the head of
King Charles that he could not also
knock off the horns.

Regarding Ireland, let me say while
it is true that there was no history of
Ireland before the 11th century, yet
my friend must know that there is
not a land in existence that has not
kept facts and figures together several
hundred years before history was made
and that such facts and figures were
entered in the history when com-
piled. Why is it that we even to this
day get new and startling facts relat-
ing to the ancient people engraved
upon stone tablets, and I have seen
several in my native country, which
are now kept in Thorvalsen's Museum,
Copenhagen, Denmark. May not the
Irish people have had a similar way
of retaining historical knowledge, or
will my friend call them more ignor-
ant than other people? Be careful!

Regarding the harp, while it is true
that nothing is known regarding the
Hebrew harp, we do know about the
Egyptian and Syrian instrument of
that name; and were not the Jew-
rites in touch with Egyptians and Sy-
rians, and may not the psalter or harp
have been known from them? If my
learned friend will look in the World's
Wide Encyclopedia, page 3039, vol.
IV, he will find that the harp was
known and in use at the time of King
Rameses III, King of Egypt. I be-
lieve that is earlier than my friend
refers to.

Regarding the United States and
my explanation of the thirteen stars
can my friend contradict my state-
ments made in the pamphlet? Oh
yes, I know of the original thirteen
States, and I know what my learned
friend does not seem to know, that it
was an old lady in Philadelphia who
gave the first design of the United
States flag and that before these thir-
teen states at least had a right to
unite in a republic for the flag was
used long before which gave them
freedom and independence.

And why does not my learned
friend give an explanation why we
find the Egyptian pyramid in the
United States soil?
In closing let me say, do not throw
stones at Mr. A. S. Rosenfield while
he is hundreds of miles away. That
is not right. I am quite able and
strong enough to take all the criticism
myself.

I may say, in conclusion, I think
since my little pamphlet has so as-
tonished my learned friend, I think
I will write another and therein ex-
plain what became of the Ark of the
Covenant and also give some infor-
mation regarding the Coronation
Chair of Great Britain.

Yours very truly and humbly,
N. P. Goss.

A Wonderful Tonic and Strengthenner

"Said a druggist to-day, 'No doubt
of it, the tonic that gives best results
is the biggest seller, and that is Ferri-
zine. It enriches and purifies the
blood, restores strength and energy to
the feeble, and is a scientific recom-
pensation for what was always popular.
In chlorosis, anaemia, tiredness, languor,
brain fog, indigestion and dyspepsia its
action is prompt, and satisfactory
cures always follow. Yes, I recom-
mend it to my customers be-
cause I believe it is the best tonic and
strengthening medicine that money can
buy.' Large boxes cost 50c."

Communication
We do not so, usually, unless the contents
advised by this or any other correspondent
under this heading.
I was much pleased to peruse
an answer to my communication
of some weeks ago and whilst con-
gratulating, "American-Canadian",
on his somewhat temperate letter,
yet I can hardly help pointing out
that it is a little more easy for a
himation as he is and so signs him-
self that it is for one who is in
every sense of the word British.

His Last Hope Realized
(From the Sentinel, Gobe, Mont.)
In the first opening of Oklahoma to
settlers in 1890, the editor of this paper
was among the many seekers after
fortune who made a big race one fine
day in April. During his traveling
about and afterwards his camping up-
on his claim, he encountered much
bad water, which, together with the
severe heat, gave him very severe diar-
rhea which it seemed almost impos-
sible to check, and all day in June the
case became so bad that he expected to die.
One day one of his neighbors brought
him one small bottle of Chamberlain's
colic, cholera and diarrhoea remedy as
a last hope. A big dose was given
him while he was rolling about on the
ground in great agony, in a few min-
utes he was up and about.

THE WETASKIWIN TIMES

THURSDAY, JULY 2, 1903

Millot

Intended for last week
Since the Wetaskiwin fire has
brought it so forcibly to mind, we
are more thankful than ever, our
little blaze was detected in time to
check a complete wiping out of the
centre of the town; only one house
was destroyed.

We are having a little more rain
than necessary just now, but every-
thing is growing fine and the in-
dications are that we will have a
big crop this year.

We will soon have our first elec-
tion, then we will see what can
be done towards ditching and grad-
ing the streets and making the
town a little more attractive to
strangers.

All the land that was open to
homestead entry, east of town is
taken and it is now necessary to
go from twenty to thirty miles
west to get a homestead. How-
ever, many are going out and they
all report a fine country adjacent
to Pigeon lake, which is being
rapidly taken up.

B. A. Van Meter has just re-
ceived a fine yearling Black Pool
bull from Regina. He is a beauty
and so large the C.P.R., for that,
or some other reason, were forced
to pull the train that brought him,
with two engines. Van has a fine
herd of black cattle and a visit to
his farm will give one a good idea
of what can be done in farming
and ranching in this vicinity.

P. J. Mullen is having a wagon
scale put in front of his lumber
yard. It will fill a long felt want.

Ferry Point

The recent showers have fresh-
ened things up and the crops of
grain and vegetables are growing
nicely. The pasture is of the
best quality and stock are looking
fat and sleek.

Mr. Smith, the general business
head of this place, is doing a good
trade, as people are seen driving
from all directions to the store
with their produce and to get their
supply of provisions.

Breaking land, building and
fencing are the order of the day
here now. The breaking is get-
ting very tough as the ground is
dry on unbroken land, and some
of the farmers are thinking of
waiting for rain.

John Kennedy is building a good
barn.

Wm. Sutherland and Geo. L.
Simpson, from Pleasant Prairie,
are out here building and break-
ing and doing other improvements
on their homesteads.

David Kennedy, of Wetaskiwin,
is out working on his homestead
and will return to town on Mon-
day.

Geo. McTavish is stopping at
John Kennedy's. He is an old
acquaintance, coming from the
same place, Culmnet, Michigan.
He intends taking homesteads for
himself and two sons.

What might have proved a ser-
ious runaway on Friday happened
to Miss Wellman and her younger

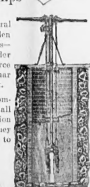

brother while going to Ferry Point
and crossing section thirty where
a farrow had been freshly plowed
for a fire-guard the horses, a large
spirited team, stopped and turned
sharply to one side, breaking the
pole clean off. Fortunately they
kept the horses under control un-
till they got them unhitched from
the demora. Getting the assis-
tance of Geo. L. Simpson with
hammer, nails and wire, they got
rigged up again and went on their
way.

But when you do have them it is a
mighty quick relief you want. Fol-

ened water and the pain is gone.
Buy a bottle of Nervine to-day, and

mon household necessity and only
costs 25 cents. Dr. Hanks's man-

DISTRICT NEWS

Gathered by our own staff of wide-awake correspondents.

Hillside

Intended for last week

It is rumoured that the school house will be opened on July 2nd, rumour, however, is untrustworthy in many instances and may be so on this contemplated auspicious occasion, viz.: rumor said that the opening was to take place for certain on April 1st, but whether our solon trustee discovered or had it pointed out that the eccentricities of Bedlam Lunatic Asylum were exhibited on that date I cannot say suffice it to be known the school was not then opened at any rate for instruction. Of course the trustees must have gone there themselves in sympathy.

I regret to note that Mr. Fotherstone, of Hillside, has lost two horses he lately purchased, which have been gone now for over a week, it has been asserted that they were in company with some others and being driven off. They are both branded and it is hoped that the driver will soon be stopped. On two occasions last week fences were constantly let down and left so that either cattle or horses might get astray. Should the author or authors of those mean and evidently criminal proceedings be discovered they may rest assured that either home or legal law will be awarded with all the rigor it deserves. There is probably a systematic horse stealing gang at work. Congratulations to the Wetaskiwin farmer who got his white horse back which he spotted from an elevated place where he had been hiding. What he said to the fellow who had got it has not yet been transferred, but I trust he either gave him over to the police or the weight of his fist. Mr. White a resident of this district is on the war-path he having lost several horses. I wish him every success in catching the scoundrel and getting back his property.

Our police will be equal to tracking if farmers only let them know in time. Use the telegraph when in town, use the telegraph!

The homestead inspector was around here last week and appeared satisfied with what he saw.

The last few rainy days have greatly helped the crops up here are coming up well.

A considerable amount of clearing and fencing is already done with more to follow. The place looks entirely different to what it was a year ago.

Lewisville

The Ladies Aid, of Lewisville, will hold a bazaar and entertainment in the Lewisville church, two miles south of Lewisville, on Thursday afternoon and evening, July 9th, and ice cream and lemonade will be served. Many useful and fancy articles will be offered for sale. The proceeds will go toward buying an organ for the church.

Roseland

Intended for last week

The much needed rains of the last few days have brightened the prospects for an abundant crop.

About two weeks ago a daughter arrived at the home of Mr. and Mrs. Selney. The darling was very welcome as they were already the proud parents of two hearty sons.

It is some comfort to travel on the roads in our immediate neighborhood now. Thanks, to our energetic overseer F. Freeman.

Mrs. Borden, of North Dakota, is visiting her parents, Mr. and Mrs. John Dymak and her sister, Mrs. F. Freeman. She has three bright little girls with her. We are very glad to see her here as few people come to visit without coming back to stay.

Mr. Thos. Turnbull preached his farewell sermon last Sunday. Some present thought it the best of his many good sermons. He was making his sterling good qualities felt and many were very loathe to have him leave.

Corns between the Toes

or the soles of the feet can be cured by a few applications of Putnam's corn extractor, which has been successfully used for 30 years. Putnam's is sure, safe and painless, and much better than any substitute.

Reserve

Rev. W. R. McIntosh, of Elora Ont., brother of Mrs. A. A. Goodhand spent a few days on the Reserve. He has been attending the Presbyterian General Assembly at Vancouver, B. C. He is delighted with the country.

A number of our Indian people are plowing now, getting ready for next season. Prospects for a good crop were never better.

Potatoes and all garden vegetables are looking fine.

A. A. Goodhand intends going to Olds this week for a few days.

The officials were busy all last week branding the cattle of the Reserve.

Miss A. Burns, of Pleasant Prairie and Mrs. Marks, of Peace Hills, attended services at Bear's Hill on Sunday. Our people are always glad to welcome white visitors at their services.
